

Calf-Tel Pro

Proven strength and durability

Calf-Tel Pro has many advantages to offer. It has more useable interior calf space than other similar hutches. It has the most efficient rear-bedding door of its kind. It comes either left or right offset shrouded entry, or a full open entry to allow even greater air-flow

Optimal ventilation is provided by both ridge top vents and an adjustable rear vent that provides a larger "open window of air" for your calf than any other hutch on the market.

The material is extremely durable, but light enough to handle easily. The completely opaque plastic protects calves from the heat of the sun in the summer and from excess condensation in the winter.

10 year factory warranty.
