

Comfort stud mat - 10/10 with edge

100% natural rubber

The Comfort stud mat 10/10 is a solid comfortable rubbermat with flexible studs. The solid rubber mat is durable and consist of 100% rubber with nylon inlay. The rubbermats have proven themselves worthy in the agriculture and will improve the comfort of the cows. The hammer top surface provides good grip, good drainage and makes the mat dryer and easier to clean. The mats are offered on a roll for easy and seamless installation.

Application

The Comfort stud mat is for the floor covering in the cubicles and feed-cubicles of a barn for dairy cows, calves and heifers.

Easy to clean

The rubbermat can be cleaned by means of a high pressure cleaner and the rubbermat is resistant to sharp objects and hoofs.

Advantages

- Natural rubber on a roll with nylon inlay
- Anti-slip even when wet
- Increases natural behaviour
- Flexible, soft and doesn not absorb water
- Shock absorbing
